

Andrey

Udemy

Django 3

2022

Hello! This summary was written out of the need to place a pdf file in the educational project.

I'm Andrey Tryapyshko, I live and work in St. Petersburg (only this phrase was written without the help of Google translator (but this one is already with the help)).

Now I am taking a course on the yudemi platform, learning the framework Django 3. This is my first project related to the work of the web.
